Nodes: accept/SCC/init/dist
Edges:E/forward/skip/back
φ → A_φ, q_t, o_t
Env&Automaton Interaction
SE-GNN Encoding
Multi-Scale Embedding
V_short Critic (dense)
V_short
Dynamic fusion: β(q) balances short vs long based on proximity
Dynamic Fusion β(q) weights V_short/V_long
Value + Actor Policy Network
V_long
- Short-term: 1/2/3-hop embeddings
- Long-term: proximity / distance / history
Automaton Tracking(LSTM)
V_long Critic (sparse)
